Profile

I am a highly motivated self-starter looking for a company where I can grow and learn as much as I can. Using resources off the internet, I taught myself frontend web development and created projects I am proud of. I am a former seafarer. From that profession I nurtured a detail-oriented personality and a work ethic that gets the job done. I hope to grow with your company.

Work Experience

Telmosolutions, Tacloban

February 2023 – April 2023,

Junior Frontend Developer Trainee

- Supervised a trainee development team in the creation of a Job Order Management App using Codeigniter 3 and Perfex CMS.
- Carried out frontend maintenance on a high-profile government website using October CMS.
- Implemented a date-picker plugin for a social app using React and native HTML elements.
- Completed work tickets for ticket-based projects.

Anscor-Swire Shipping Management Corporation, Pasay
